

## Languages Sheffield Membership Application Form

**Languages Sheffield** promotes all forms of language use and learning in Sheffield. We encourage the life-long learning and usage of all of the city and region's community languages.

The organisation is the result of a merger of **Multilingual City Forum** and the **Association of Sheffield Community Language Schools**.

We support complementary language schools by organising training and developing curricula, arrange conferences, publish newsletters, organise seminars and put on workshops around issues of language learning and language provision. Languages Sheffield links language providers across sectors - schools from nursery to secondary, further and higher education, private language providers, complementary language schools, statutory and private interpreting and translation services, exporters and the business community and local authorities.

### **Join Languages Sheffield**

Languages Sheffield is a registered company (no. 4333416) and registered charity (no. 1114012), a social enterprise, and membership organisation. Our trustees come from education and business and we have corporate and individual membership.

Complementary school's quality framework awards ceremony.
